- One of 10 core members in the oldest and the most sought-after technical society of TIET with a team of 200+ students. Organized multiple offline and online events in the technical and cultural festival. Handled finances for the society for a brief period of time.

## SKILLS

Programming Languages: C++, C, Python, Javascript, SQL, HTML, Dart, GOLang  
Libraries/Frameworks: ReactJS, NodeJS, ExpressJS, CSS, Bootstrap, Flask, Flutter, Kivy  
Tools / Platforms: Android Studio, Visual Studio Code, Linux, Github, Arduino  
Databases: MySQL, MongoDB

## PROJECTS / OPEN-SOURCE

**ShopCrop | Link**

*HTML, CSS, Bootstrap, Flask*

This project was aimed to solve the plight of farmers across the county by providing them with a simple and multilingual online marketplace to sell their crops directly at MSP, hence removing the involvement of a middleman (tehsildar), saving them money and the potential risk of getting less than what they are entitled to. We used HTML, CSS and Bootstrap for the frontend and a flask portal for backend.

**AQI-Management-System**

*Arduino, Flask*

An IoT model for LIVE Air Quality Index(AQI) Data collection, analysis, and visualization. The flask-based web portal collected data from Arduino and visualized it using charts and maps.

## HONORS & AWARDS

First Position, Code Whiz , Battle of Titans, Mayoora School Noida  
2391 Global Rank Google Kickstart Round H 2021  
Qualified for the Facebook Hacker Cup (round 1)  
Fourth Place, CCS Hackathon 2019

## CERTIFICATIONS

**Problem Solving || Hackerrank**  
**Issue Date : September 2020**  
**Credential**

**Introduction to Git and Github || Google**  
**Issue Date: May 2021**  
**Credential**

**Getting started with GO || University of California, Irvine**  
**Issue Date: July 2020**  
**Credential**
